Kendriya Vidyalaya Thiruwannamalai- March towards Harit Vidyalaya

- 1. Every child presents to the Vidyalaya a sapling on his/her birthday*
- 2. The students take care of their own plants, water them before going home by using the balance water in their water bottle*
- 3. The Tree plantation drive conducted for the Harit Vidyalaya campaign*
- 4. The waste water of the filters reused for watering the plant*
- 5. The students themselves maintain the gardens*

Thank you
